EXPERIENCES

Team Leader, Engineering Strategies and Practices Course, U of T **2020**

- Managed a team of 5 students to design a device that prevents raccoons from entering green bins.
- Provided reminders to the team which explained assignment expectations and tasks to complete to ensure consistent progress.
- Fostered team growth by asking questions and encouraging discussions during team meetings.

Webmaster, Ontario Engineering Competition 2022 **2021-Present**

- Set up the domain and email accounts for team VPs to facilitate external communication.
- Creating a website that is informative, visually appealing, and accessible for event attendees and sponsors.

Logistics Associate, IEEE U of T Student Branch **2021-Present**

- Planning and executing logistics required for every IEEE UofT event, including but not limited to room booking, A/V, catering, etc.
- Volunteering at IEEE UofT events to ensure smooth on-the-day logistics.

Marketing Lead, Felicity App **2021-2021**

- Developing a marketing strategy in a student-run startup that aims to address procrastination through a mobile app
- Creating social media content for multiple platforms to help boost user engagement.

House Head Prefect, Elmwood School **2019 – 2020**

- Planned a breakfast event alone to fundraise for the Make a Wish Foundation raising a total of over \$4000 CAD.
- Brainstormed creative activities, floor layout, and food options for the event to maximize event participants leading to over 200 participants.

Finance Chair-Lead Like a Girl Conference, Elmwood School **2018 – 2019**

- Supervised a team of students in compiling the budget after thorough research of material

providers.

- Communicated with providers and school faculty to set internal deadlines leading all material to be delivered 3 days before the conference date.
